CAREER EXPERIENCE

AUG 2017 - <i>Present</i>	Graduate Instructional Assistant (TA) at TEXAS STATE UNIVERSITY I teach Algebra and pre-Calculus course material to undergraduates in a classroom setting. Responsibilities include lecturing on course content as well as developing, administering, and grading homework assignments and quizzes.
JUN 2016 - Aug 2017	Software Developer at GENERAL MOTORS COMPANY (GMC) I developed Angular.js applications and integrated them with existing REST services. My team was responsible for developing a mobile-first web application for factory workers in 60+ factories to keep track of parts on assembly lines.
SEP 2015 - May 2016	Co-Op Software Engineer at IBM CORPORATION I used Balsamiq to mock up application flows and the Ionic/Angular.js frameworks to build MVPs and fix existing bugs. My team's main focus was to help redesign a mobile application that supplied the user with updates about the status of multiple servers and sent notifications in the event of any changes.

SELECTED PERSONAL PROJECTS

DRAWINGGUIDE	Created a machine learning powered image comparison algorithm for identifying mistakes in drawings using OpenCV, and PyTorch.
CHECKCLASS	Wrote a Java Selenium script that navigates my University's class registration page and sends me a text if a specified class is available.
DOESCOLEMANWORK	Wrote a small Ionic/Angular.js application for the mother of a friend (a fire fighter that works a 24 hour shift every 3 days) that tells her the day he works next.
