## CAREER EXPERIENCE

---

AUG 2017 - <i>Present</i>	<b>Graduate Instructional Assistant (TA) at TEXAS STATE UNIVERSITY</b> I teach Algebra and pre-Calculus course material to undergraduates in a classroom setting. Responsibilities include lecturing on course content as well as developing, administering, and grading homework assignments and quizzes.
JUN 2016 - Aug 2017	<b>Software Developer at GENERAL MOTORS COMPANY (GMC)</b> I was part of a team that developed a new mobile-first web application for factory workers in 60+ factories to keep track of parts on assembly lines. Specific contributions included webpage development and integration with REST services.
SEP 2015 - May 2016	<b>Co-Op Software Engineer at INTERNATIONAL BUSINESS MACHINES (IBM) CORP.</b> I was part of a team of six co-op software engineers that worked with mostly back-end and mobile technologies (specifically Node.js, HTML, CSS, JavaScript, and the Ionic framework). Our main focus was to help redesign a mobile application that supplied the user with updates about the status of multiple servers and sent notifications in the event of any changes.
